December 2012	46
Total	460

2011 by Month	Number of Cases
January 2011	20
February 2011	12
March 2011	23
April 2011	14
May 2011	15
June 2011	27
July 2011	23
August 2011	22
September 2011	23
October 2011	33
November 2011	30
December 2011	29
Total	271

**Please note:** American Association of Poison Control Center data for this year and last is considered preliminary because it is possible that a poison center may update a case anytime during the year if new information is obtained. In the fall of each year, the data for the previous year is locked, and no additional changes are made.

The term "exposure" means someone has had contact with the substance in some way; for example, ingested, inhaled, absorbed by the skin or eyes, etc. Not all exposures are poisonings or overdoses.
